

Q.1. Design Interest Calculator App which has form based UI as under

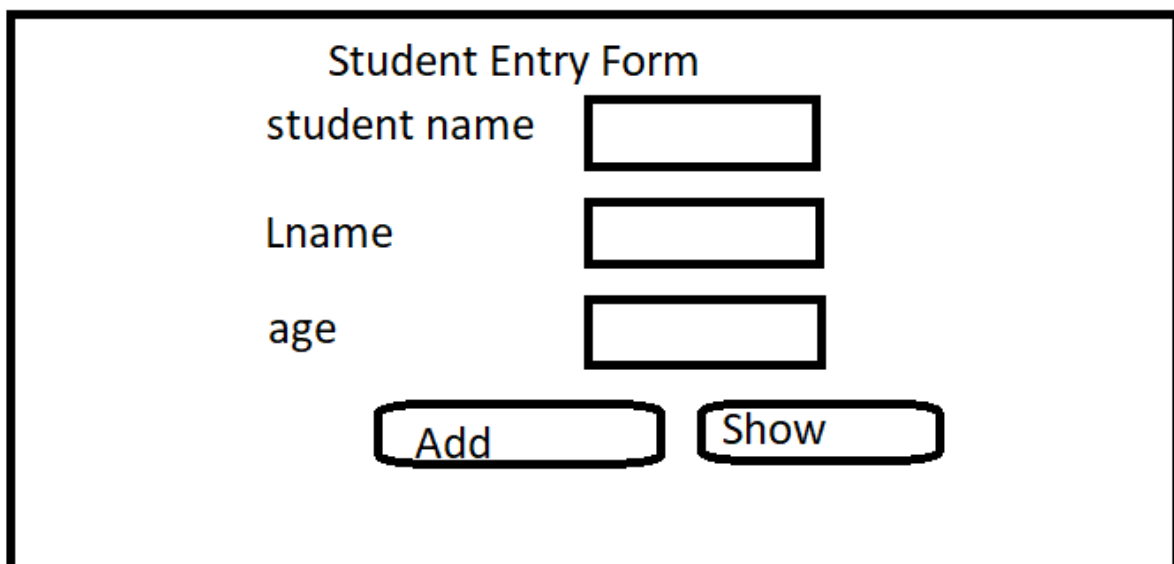

The image shows a UI design for a 'Mathematical Operation' app. It features a title 'Mathematical Operation' at the top. Below the title is a label 'Enter no:' followed by a rectangular input field. Underneath the input field is a rounded rectangular button labeled 'Operate'. At the bottom of the form is a large rectangular box containing three lines of text: 'The number is prime', 'The square of number is', and 'Reverse of number is'.

Design and App where user enters valid no and when he clicks on operate, It show details of number in tabular format, like whether its prime, Reverse of number etc

Do appropriate validations

***The above need to be created using Bootstrap and appropriate validations must be used. Use of DOM also is recommended***

Q. 2

The image shows a UI design for a 'Student Entry Form'. It has a title 'Student Entry Form' at the top. Below the title are three labels: 'student name', 'Lname', and 'age', each followed by a rectangular input field. At the bottom of the form are two rounded rectangular buttons labeled 'Add' and 'Show'.

Design above Form using Bootstrap and when user clicks on Add calls servlets which processes and Adds data in the database. Whenever you click on show it shows all entries of students in db in tabular form. (Either of Add or show must be functional)

**Evaluation of Lab Exam should be based on the following criteria:**

Criteria	Details	Max Marks	Marks Obtain
Algorithm	Documentation of Algorithm and Flowchart	30	
	Program adheres to the algorithm and flowchart		
Efficiency	Program is using only the required number of variables /conditions/loops/pointers etc and is optimal		
Correctness	The program produces desired output for a given input		
	The program handles all valid and Invalid inputs		
Software Engineering Principles	The program has meaning variable/function names		
	The program is commented properly (At least 20% of the code should be commented)		
Viva		10	
	<b>Total Marks</b>	<b>40</b>
